

# Cutting and coring machine

## Model SS2/SS8/SS8 MAXI

Various fruits and vegetables

The SS2/SS8/SS8 MAXI cutting machine has been designed for various fruit sizes processing. It is a semi-automatic machine, which allows cutting of pineapple\*, apple, pear, kiwi, tomato, potato, etc. into different shapes (chunks\*, slices, wedges, sticks) and dimensions thanks to the possibility of cutters and plungers replacing.

The operator only needs to load the product. The automatic mechanism is equipped with plungers that push the product through the cutters performing the cut desired.

The product will be collected on the included conveyor belt.

\*Can only be processed on the SS8 MAXI
