

Cutting machine for slices

Model RR8
Apple, peach

The manual cutting machine is suitable for apple and peach in rings. The structure consists of a stainless steel welded tubular frame and is on wheels for easy movement. If required, adjustable feet can be used. The machine has four loading tubes and the fruit is gravity fed to the rotating slicer. The diameter loading tubes is a predetermined size depending on the product specification. The fruits come into contact with the blades of the turntable and from here they are cut in slices or rings.

BRAND

SPECIFICATIONS

CAPACITY	60 pieces p/min
OPERATORS	1
DIMENSIONS (LXWXH)	800 x 800 x 1700 mm
WEIGHT	400 kg
POWER	1.5 kW
AIR PRESSURE / CONSUMPTION	-
WATER PRESSURE / CONSUMPTION	-
FRUIT SIZE	Ø 45 – 100 mm
SLICE THICKNESS	3 – 10 mm
